Subject: Approve revocable license for private improvements in the City street right-of-way in front of 26 Lagoon Road

Recommended Motion/Item Description

That the City Council approve the revocable license agreement for 26 Lagoon Road for improvements in the street right-of-way as part of the Consent Calendar.

Background and Findings

Proposed encroachment on City property – 26 Lagoon Road – APN 060-111-28

The attached license agreement requires the property owner to assume liability and maintenance responsibilities for:

Joint utilities trench under roadway, new driveway apron, driveway pavers, replacement sidewalk, landscape plantings and walkway pavers. (Refer to attached draft Revocable License No 2016.02 and associated exhibit.)

Revocable license policy

City of Belvedere Administrative Policy (Chapter 272, “Revocable Licenses”) was adopted by the City Council in August 2001 (Resolution No. 2001-20). The purpose of the policy is to provide guidelines for use in the determination as to whether a license for the private use of excess street right-of-way may be granted, or whether excess public rights-of-way and vacant public lands shall be vacated and/or sold.

The Policy states that a revocable license for private use of excess street right-of-way may be granted at the discretion of the City Council, provided any proposed encroachment into the right-of-way complies with the design review requirements of Title 20 of the Belvedere Municipal Code. Circumstances in which it may be appropriate for the City to grant a revocable license for private use in excess street right-of-way include, but are not limited to the following:

- a. The encroachment is necessary to provide pedestrian or vehicular access from private property to the adjacent public street.
- b. Use of the public right-of-way will permit landscaping that the City determines will enhance the aesthetic qualities of the streetscape.

- c. Use of the public right-of-way will provide an off-street parking area, and will thereby relieve parking or traffic congestion on the adjacent City street;
- d. The public right-of-way will be used to construct retaining walls, drainage structures or other facilities that the City considers necessary to protect or maintain the public infrastructure
- e. The license will validate already existing private improvements in the public right-of-way for the purpose of shifting the City's potential liability for injuries and damages to the private property owners using the right-of-way for private purposes.

Background of current application; future improvements

On December 15, 2015, the City of Belvedere Planning Commission approved application requests for a Demolition Permit, Design Review and a Variance to allow for the construction of a new 3,556 square-foot two-story residence (includes a 441 square-foot garage and 63 square-foot of area attributed to ceiling over 15' in height) and related site improvements. The Planning Commission approved the proposed modifications and recommended approval for the proposed encroachments into the public right-of-way. The Commission/staff finds that encroachment is necessary to provide pedestrian and vehicular access from private property to the adjacent public street and use of the public right-of-way will permit landscaping that will enhance the aesthetic qualities of the neighborhood, while also maintaining views from the public right-of-way.

The license covers any future improvements within the revocable license area which receive staff or Planning Commission design review approval and which meet one or more of the criteria for approval established by City Council resolution (a through e above). Applications for substantial, potentially permanent and/or obstructive structures within the City right-of-way, which fall outside Criteria a – e enumerated above, will still be required to go to the City Council for consideration and approval/denial. Detailed records at City Hall, maintained in the Planning Department file for this address, will always be available to show exactly what structures have been approved within the license area. This will save considerable staff time that would be devoted to bringing a revised license and staff report to the City Council and in issuing, recording, and archiving a new license agreement.

Recommended Action

That the City Council approve the revocable license agreement for 26 Lagoon Road for improvements in the street right-of-way as part of the Consent Calendar.
