Re: Letters from Belvedere Park neighbors

Date: Monday, May 23, 2016

Mary and Council Members,

On Saturday, Nena Hart, Adam Gavzer and I canvassed the neighbors around the park, starting at San Rafael Avenue and continuing to Community Road and talking with people using the Park that day. We learned a lot about the neighborhood and had many interesting conversations.

Consensus is that most neighbors would love the movie night. There were 2 empty homes on San Rafael Avenue and several others where nobody was home.

We had negative reactions from 3 people, all of whom have written to the town separately. Their objections range from the noise to the need to have a movie at all. Many incorrectly thought that we were proposing a series of movies. We assured them that this is a one-time event for Concerts.

One thing to recognize is that the sound from a movie with speakers directed to the audience in front of the screen is not the same as a band playing, where the bass noise carries. We think this will be a quieter event.

WE hope this will help the Council approve our Permit on June 13, 2016.

Please feel free to call me with any questions.

Sincerely,

Concerts in the Park Committee,

Petey Stein, Chair
