
To: Mayor and City Council
From: Craig Middleton, City Manager
Subject: **Approve purchase of evacuation route decals**

Recommended Motion/Item Description

Approve the design, purchase and application of emergency route decals.

Background

In order to improve emergency preparedness in Belvedere, staff is proposing to install a set of blue arrow decals along evacuation routes to provide an easily-identifiable evacuation guide for city residents.

Mill Valley has also approved the use of the same blue decals along its series of lanes and pathways.

The cost for each decal is approximately \$30. Funding would not to exceed \$2,000, which would provide for the purchase of approximately 65 decals. The Department of Public Works would install the decals in accordance with an evacuation route map provided by the Tiburon Fire Protection District.

Fiscal Impact

The program would cost up to \$2,000 from the existing Public Works budget.
