
To: Mayor and City Council

From: Robert Zadnik, Public Works Manager

Subject: Award contract for the Beach Road Seawall Stabilization Project

Recommended Motion/Item Description

That the City Council award the construction contract for the Beach Road Seawall Stabilization Project in the amount of \$312,400.00 to Blue Iron Foundations and Shoring.

Background

During the October 8th 2018 Council Meeting, the City declared a local emergency to address the failing seawall on Beach Road. Plans, Specifications and Engineering work were finalized and the project was advertised locally to a group of qualified and competent contractors.

On December 21st 2018 the city received three bids for the seawall repair project (see attached bid tabulation). Of these, Blue Iron is the apparent low bidder. Their proposal includes the necessary mobilization, labor and materials as required in the bid specifications.

Costs for design, project management and environmental mitigation are estimated at \$70,000 and are separate from the proposal.

Fiscal Impact

\$480,000 was earmarked for this project in the FY 18/19 Capital Improvement Budget. The attached bid tabulation includes an option (Alt 1) for the City to install an additional 80' of sheet piles. Given the construction impacts for this type of work, most notably noise considerations for the surrounding residents, staff is not recommending any additional work at this time.

Recommendation

That the City Council award the construction contract for the Beach Road Seawall Stabilization Project in the amount of \$312,400.00 to Blue Iron Foundations and Shoring.
