Dear Preservation Committee,

It would be appreciated if I would be considered for the vacancy on the Preservation Committee.

The early homes in Belvedere have always been an interest and concern of mine.

An interest in the fact that they maintain the history of Belvedere's origin and of the times. The concerns are that when these particular homes are lost so is some of the history of Belvedere.

Hopefully, with enough awareness and set examples more homes could be classified as "historic" and preserved.

Thank you very much for your consideration.

Best Regards,

R. Griffin
