NOTICE OF PLANNED WORK

Dear Belvedere Resident,

This is a courtesy notice informing you and your neighbors of the upcoming playground renovation project at Community Park. The Community Park Playground Renovation Project will consist of demolition of the existing sandbox and surrounding concrete, and replaced with nature play area, synthetic turf and rubber matting with climbing hills, play furnishings, seating, and shade sails. In addition to this, the existing boat will be relocated after refurbishment by City.

The project was publicly bid and awarded in February to McNabb Construction Inc., a contractor who specializes in the installation of playgrounds. Construction vehicles, materials and equipment will be staged along the east end of Community Park. Community Road will be open to vehicular traffic and parking during construction hours.

To reduce the risk of injury, the entire playground area will be fenced off for the duration of the project. The remainder of the park will be open to the public.

McNabb Construction anticipates the length of time to complete this project to be approximately 6-8 weeks, from a start date of Monday May 2nd to an estimated finish date of June 30th. Normal working hours will be from 8:00 am – 5:00 pm Monday through Friday, excluding Holidays. A complete work schedule will be made available at City Hall, copies will be provided upon request.

Thank you for your understanding. For specific questions regarding the construction schedule, park access, and planned work, please contact the following personnel.

Robert Zadnik, Public Works Director

Chris Barry, Public Works Associate Engineer

Dave McNabb, McNabb Construction
